

EagleView® Technologies and FieldAdjuster.com Announce Partnership

EagleView Technologies, the leader in 3D aerial roof measurements, and FieldAdjuster.com, a growing web-based resource for insurance adjusters, announce a partnership to provide EagleView 3D aerial roofing reports to FieldAdjuster.com members.

Many insurance adjusters use EagleView 3D aerial roofing reports to help process more claims in less time, close claims faster and lower their cost per claim. FieldAdjuster.com offers an opportunity for adjusters to increase their ability to be deployed with thousands of companies handling insurance claims. The combination of easy access to the EagleView report simply enhances the goals of both companies – to provide adjusters the tools and resources to successfully manage their businesses with the best available technologies.

Benefits

- Third-party independent standard accepted by all major insurance carriers
- Increase claim handling capacity
- Eliminate disputes and supplementals
- Process claims faster
- Accuracy guaranteed
- Increase flexibility to respond to weather disasters quickly
- Easy to use
