

# 2015 Eagle Ford Shale Intelligence & Imagery

Explore, analyze and evaluate the Eagle Ford Shale using Pictometry CONNECT™, a cloud-based platform that delivers high-resolution 2015 imagery and analytical tools to provide the visual intelligence needed to maximize your company's efficiency and profitability in this region.

## EXPLORE

High-resolution, 6-inch GSD orthogonal and 9-inch oblique imagery of the entire area.

## ANALYZE

Powerful analytical tools allow users to measure, examine and evaluate the area right from the desktop or mobile device.

## INTEGRATE

Access the imagery and data in your regular workflows with strong integrations, including a WMS option. The CONNECT platform offers extensions for ArcGIS Desktop and AutoCAD Map 2014; mobile apps for iOS and Android and IPAs for other third-party applications.

**Give your company access to the highest level of detail and intelligence available for less than \$1 per square mile. Image collection is scheduled for June 2015 with availability in July 2015.**
