

How CONNECTExplorer™ Can Help You

View aerial imagery of parcels for field appraisers

Export & share imagery from remote locations

Manage new GIS layers related to public health

*Share “Contributor” Workspaces (saved measurements & annotations)
for easy collaboration*

How You Can Help the Community with CONNECTExplorer™

Utilize markers to track clusters

Export Workspaces to KML files for uploading to CONNECT, quickly & easily

Use Identify Tool in conjunction with GIS data to answer citizen questions
