123 Main St., City, ST 00000

PROPERTY ADDRESS & REPORT NUMBER ON TOP OF EVERY PAGE.

3D MODEL FROM WHICH ALL THE REPORT MEASUREMENTS ARE DERIVED.

Your contact information presents a professional image to the property owner.

In this 3D model, facets appear as semi-transparent to reveal overhangs.

MEASUREMENTS

- Total Roof Area = 3,915 sq ft
- Total Roof Facets = 44
- Predominant Pitch = 6/12
- Number of Stories = 1
- Total Ridges/Hips = 419 ft
- Total Valleys = 184 ft
- Total Rakes = 35 ft
- Total Eaves = 439 ft

Certified Accurate

www.eagleview.com

Accuracy Guarantee: EagleView Reports are third-party tested & verified!
Aerial imagery lets you see the property before you set foot on it.

Get a clear view of drop points for supplies and potential trouble areas ahead of time.
Only EagleView brings you aerial imagery from fixed-wing aircraft—not satellite—to show you a property from the top down and all four cardinal directions.
Imagery lets production plan job details, like crew assignments and drop locations, to eliminate unpleasant surprises later on!
Accurate measurements enable you to sell upgrades with confidence.

The length diagram shows all linear measurements—color-coded for ease.

Note: This diagram contains segment lengths (rounded to the nearest whole number) over 5.0 Feet. In some cases, segment labels have been removed for readability. Plus signs preface some numbers to avoid confusion when rotated (e.g., +6 and +9).
Pitch values are shown in inches per foot, and arrows indicate slope direction. The predominant pitch on this roof is 6/12.

**View the predominant pitch of the roof in one spot.**

**Explain complexity of project and steep slope charges to prospect with easy-to-understand diagrams.**

Note: This diagram contains labeled pitches for facet areas larger than 20.0 square feet. In some cases, pitch labels have been removed for readability. Blue shading indicates a pitch of 3/12 and greater.
Determine waste factor with square footage and number of facets to help production plan the job efficiently.

Total Area = 3,915 sq ft, with 44 facets.

Note: This diagram shows the square feet of each roof facet (rounded to the nearest Foot). The total area in square feet, at the top of this page, is based on the non-rounded values of each roof facet (rounded to the nearest square foot after being totaled).
Use the notes diagram when discussing the job with the homeowner.

This diagram also appears in the Property Owner Report, giving prospects the information as well.

Note: This diagram also appears in the Property Owner Report.
All the information appears in one place to help you create your estimate.

**REPORT SUMMARY**

**All Structures**

<table>
<thead>
<tr>
<th>Areas per Pitch</th>
<th>5/12</th>
<th>6/12</th>
<th>7/12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Roof Pitches</td>
<td>12.3</td>
<td>3841.7</td>
<td>1.1</td>
</tr>
<tr>
<td>% of Roof</td>

**Additional materials needed for ridge, hip, and starter lengths are not included in the above table. The provided suggested waste factor is intended to serve as a guide—actual waste percentages may differ based upon several variables that EagleView does not control. These waste factor variables include, but are not limited to, individual installation techniques, crew experiences, asphalt shingle material subtleties, and potential salvage from the site. Individual results may vary from the suggested waste factor that EagleView has provided. The suggested waste is not to replace or substitute for experience or judgment as to any given replacement or repair work.**

Order materials accurately with Suggested Waste Factor, calculated using the property's unique features and complexities.

**Lengths, Areas and Pitches**

- Ridge = 70 ft (13 Ridges)
- Hips = 349 ft (33 Hips)
- Valleys = 184 ft (20 Valleys)
- Rakes = 35 ft (6 Rakes)
- Eaves/Starter = 439 ft (44 Eaves)
- Drip Edge (Eaves + Rakes) = 474 ft (50 Lengths)
- Parapet Walls = 0 (0 Lengths)
- Flashing = 122 ft (23 Lengths)
- Step flashing = 102 ft (28 Lengths)
- Total Area = 3,915 sq ft
- Predominant Pitch = 6/12

**Property Location**

- Longitude = -96.3100930
- Latitude = 30.6729748
- Notes: This was ordered as a residential property. There were no changes to the structure in the past four years.

**Online Maps**
